Forecast For Wales
Issued by Met Office Exeter
at 0400 on Sunday 14 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry at first with sunny spells. Rain later.

Today:
Today will start dry for most, with sunny spells. The odd shower possible. A band of rain, rarely heavy, will move in from the northwest and hit most Wales by mid-afternoon. Mostly cleared by evening, but lingering in the south. Maximum temperature 9 deg C (48 deg F).

Tonight:
A dry night for most with clear spells. The remnants of the afternoon's rain clearing through the evening and overnight. Light rain possible in the west just before morning. Minimum temperature 2 deg C (36 deg F).

Monday:
A dry day for most, but light rain coming in from the west likely to hit some areas. Mostly confined to the northwest, but may spread further briefly. Maximum temperature 13 deg C (55 deg F).

Outlook for Tuesday to Thursday:
Tuesday dry for most with sunny spells, but patchy light rain possible at times. Wednesday dry with sunny spells. Thursday largely dry but possible heavy showers in the far south.
